

## PRODUCT DATA SHEET

**Henko Good Weather Synthetic turf Adhesive****R305****Product**

Henko Good weather synthetic turf adhesive (R305) is a solvent free 2-component polyurethane system for most types of synthetic turf.

**Composition and properties**

Base : 2-component polyurethane

**A-Component**

Colour : green

**B-Component**

Colour : brown

**Mixture**

Mixing ratio : A:B = 12,3:1,2

Colour : green

Pot-life : 50-55 minutes

Open time : 60 - 70 minutes

Storage : frost-free

Solid content : 100% (solvent free)

Usage : dependant on application

**Attention**

Values are determined at 20°C/65% Rh.

**Mixing procedure of components**

Both components should be acclimated to working temperature (approx. 20 °C) before use. Add total amount of hardener no. 10 from plastic bottle to bucket containing the resin component.

Mixing of the components: Mix both components thoroughly using an electric drill with stir attachment or electric stirrer with disposable stir attachment until compound has reached an uniform color (stir time: minimum 2 min.).

Make sure that components are well mixed on walls and bottom of bucket. Always mix complete container content in order to ensure proper mixing ratio.

**Processing**

Apply adhesive with the manual coating machine or notched trowel evenly on the suitable seaming tape (Henko C145, C345). Install floor covering during laying time and rub or press down firmly. Observe pot life of mixed adhesive.

**Environmental aspects**

Due to the composition of the product, there are no limitations with regard to handling, storage or processing. For more detailed information please refer to our Material Safety Data Sheet.

- Solvent free
- Excellent ridge formation
- Fast setting
- High strenght
- Environment Friendly
- Fast activation

**Packaging**

A component	Productnumber
Bucket 12,3 kg	Henko 634
B component	Productnumber
Can 1,2kg	Henko 635

**Notes**

If deviating from our standards regarding adhesive, seaming tape or artificial grass, we advice to test the adhesive with the seaming tape or artificial grass you use before making a project.

Henko takes no responsibility for using bad/different quality seaming tape or artificial grass.

If uncertain please contact Henko A&T: +31 (0) 495 633010
